Gate Emergency Contacts

(Because even the best gates occasionally have a diva moment)

If the gate ever decides it's on strike and won't open for you, don't panic — just call one of these Gate Team members. They have the magic touch *(and actual tools)*.

Cut out the cards above and stash one in each vehicle's glovebox. While you're thinking about it, add these numbers to your phone contacts too. Future you will be very grateful.
